

Another great step forward:  
**A NEW VALVE FROM BAUER –  
AND YOU CAN UPGRADE!**

## OUR NEW VALVES ...

Our filling valves have proved themselves in service unchanged for many years. Now we have developed their design further.

In this connection the valve has been equipped with a noise-reduced pressure-relief feature.

As from January 1, 2007 we are offering you the opportunity to convert or upgrade your system.

## ... YOUR ADVANTAGES.

- With the pressure-relief feature noise is reduced by more than half (16 dba).
- More-pleasant, deep frequency of the blow-off tone tuned to the human ear!
- In addition, the low residual noise and the surplus air can be discharged outside by means of a G1/8 connection!
- Fully downward compatible and replaceable everywhere!
- Many individual parts can be purchased separately – which saves costs!
- Maintenance kits available, which assures continuity

## OUR SCOPE OF SUPPLY.

### Lever operated filling valve with 90° angled hose connection

For UNIMAN high pressure filling hose PN 200/300 with rotating hose connection M16 x 1,5 and G3/8" outer thread connection.

Part No. 86327  
(replaces p/n 074175)

### Lever operated filling valve with 90° angled hose connection

For UNIMAN high pressure filling hose PN 200/300 with rotating hose connection M16 x 1,5 and G1/4" inner thread connection.

Part No. 86102  
(replaces p/n 072832)

### Lever operated filling valve with direct connection PN 300

With hand wheel G5/8" and G1/4" inner thread connection.

Part No. 85878  
(replaces p/n 010918)

### Lever operated filling valve with direct connection PN 200

With hand wheel G5/8" and G1/4" inner thread connection.

Part No. 85877  
(replaces p/n 06818)

### Lever operated filling valve

For assembly on MV and VERTICUS/  
KAP 5. For UNIMAN high pressure  
filling hose PN 200/300 M16 x 1,5  
and R3/8" conical outer thread.

Part No. 85032  
(replaces p/n 075353)

### Lever operated Nitrox filling valve with 90° angled hose connection

For UNIMAN high pressure filling  
hose PN 200/300 with rotating  
hose connection M16 x 1,5 and  
G1/4" inner thread connection.

Part No. 85622  
(replaces p/n -)

### Lever operated filling valve

For earlier versions filling hoses  
M16 x1,5 (60° conical) and G1/4"  
inner thread connection.

Part No. 86217  
(replaces p/n 011826)

### Valve body

Exchange part for all lever  
operated filling valves.

Part No. 86100  
(replaces p/n -)
